

Africa Energy Storage Power Station Latest

Overview

CAPE TOWN, 27 June 2025: Globeleq, a leading independent power company in Africa, together with its project partner, African Rainbow Energy, announced that they have reached commercial close on the 153 MW/612 MWh Red Sands battery energy storage project (Red Sands BESS). CAPE TOWN, 27 June 2025: Globeleq, a leading independent power company in Africa, together with its project partner, African Rainbow Energy, announced that they have reached commercial close on the 153 MW/612 MWh Red Sands battery energy storage project (Red Sands BESS). ESS News is indebted to the Africa Solar Industry Association (AFSIA) for detailing the ongoing renewable build-out, where developments are growing and the need for storage is clear. At the start of 2025, AFSIA provided the following chart showing the boom in installations: Across Africa, there are. Energy storage, especially battery storage, is becoming the backbone of Africa's modern power systems. And increasingly, it's not a luxury add-on. Africa's energy storage market has seen a boom since 2017, having risen from just 31MWh to 1,600MWh in 2024, according to trade body AFSIA Solar's latest report.
