## Overview

Locate Uninterruptible Power Supplies (UPS) suppliers, manufacturers & distributors in Switzerland. Interactive map of Switzerland provided. More than 30'000 UPS and battery systems have been successfully delivered, installed and are in operation at more than 3'000 clients in more than 100 countries. They are connected between a power source (such as an electrical outlet) and the equipment to protect (such as a motor or computer). (more) Description: In data centres, traffic control centres, on sensitive production lines and in many other fields, systems for the uninterruptible power supply (UPS systems) save lives and secure data, avoid costs, ensure order, protect infrastructures, and prevent situations arising that can threaten livelihoods. Both in 24/7 production facilities and applications with the highest safety requirements as well, as in the field of simple applications in serial machine construction, three decisive factors are particularly important in terms of cost-effectiveness: plant availability, maintenance costs and energy.
