

Clean Energy Battery Charging

Overview

The iPhone Clean Energy Charging feature is a relatively new feature and was added in iOS 16.1. So as long as you have a compatible iPhone that runs iOS 16 and you're in the U.S., you automatically have this feature. Unfortunately, it only works in the U.S. — if you're not in the U.S., then this isn't available, and it's unknown if it will. The Clean Energy Charging feature works in tandem with Optimized Battery Charging in order to learn your charging habits and patterns. You. If you are in the U.S. and have iOS 16.1 on your iPhone, then the Clean Energy Charging feature is enabled by default. But for optimal results, some settings are required. Since this feature needs to learn your charging habits —. Again, if your iPhone is on iOS 16.1 or later and you are based in the U.S., this feature is on by default. But you can turn it off at any time if you.
