

Cuban mobile solar cells

Overview

En medio de apagones que en varias provincias superan las 12 y hasta 16 horas diarias, una oficina estatal ha comenzado a vender paneles solares en pesos cubanos. No se trata de una tienda especializada ni de una empresa energética, sino de la Empresa de Correos de Cuba en Sancti. The Cabaiguán photovoltaic park, with a capacity of 21. 87 MW, located in the central province of Sancti Spíritus, began operations after just over two months of installation. 8. Amid prolonged blackouts in Cuba, solar panels are being installed as US sanctions restrict oil shipments and the government has added over 1 GW in the past year. For Morffi, this was a hard-won victory. Cubans scramble to install solar panels in their homes, businesses and vehicles as Washington prevents oil from reaching the Caribbean's largest island.
