

# Dodoma electricity generation

## Overview

Fully funded by the government at a cost of Sh513 billion, the project aims to strengthen Tanzania's energy infrastructure and ensure reliable electricity supply to support national development. By April this year, Tanzania has recorded a significant increase in electricity production, according to the Energy. The Steering Committee of the Julius Nyerere Hydropower Project (JNHPP) has expressed satisfaction with the implementation and performance of the flagship dam, describing it as efficiently executed and aligned with value-for-money standards set by the government. The committee made the remarks on. The transmission line will span 345 kilometers and cost Sh419 billion, with Sh94 billion allocated for substation expansions. PHOTO | COURTESY The government has already advanced Sh107. 93 billion to the contractor, TBEA Co. Ltd, marking 20 percent of the total project cost. Rosemary Senyamule has called on residents of subdistricts that will benefit from the Electricity Supply Project in 379 subdistricts to prepare for wiring in their homes in advance so that they can be connected to the service once the Project is completed. EWURA regulates the Electricity Supply Industry in Tanzania Mainland, which is primarily dominated by Tanzania Electric Supply Company Limited (TANESCO), a vertically integrated utility wholly owned by the Government of the United Republic of Tanzania.
