

# Energy Storage System Ranking 2025

## Overview

Drawing from comprehensive industry data, here's my exclusive ranking of the Top 10 Largest Renewable Energy Storage Projects of 2025 (focused on BESS integrated with renewables, ranked by energy capacity in GWh – the ultimate metric for sustained impact). The global Battery Energy Storage Systems (BESS) market is experiencing unprecedented acceleration as utilities, industries, and governments intensify adoption to stabilize grids, integrate renewable energy, and improve energy reliability. The market reached an estimated USD 15.2 billion in 2024. But in 2025, it's become the Swiss Army knife of the clean energy revolution. Market saw front-loaded shipments, and emerging markets gained momentum, driving global energy storage system shipments to a record high of 71. The report also covers the changing landscape of the global and regional markets and highlights the companies with the largest market shares in 2024. During the conference, PVBL announced its annual ranking of the top 20 global PV energy.
