In 2026, China continues to be a key player in the global inverter market, known for high-quality and cost-effective products. Our inverters are designed for both grid-connected and off-grid solar systems, as well as hybrid systems that combine both application types. Designed to convert direct current (DC) from solar panels into alternating current (AC) at 220 volts, these inverters are essential. SOSEN operates a 70,000 m² production base equipped with state-of-the-art manufacturing and testing facilities, enabling strict quality control and scalable production to meet global demand. The Hybrid Inverter power range is from 3kW to 60kW, compatible with low voltage (40-60V) batteries and high voltage (150-800V) batteries. Sunplus latest EV Charging Station.
