Moveable Solar Mounting Rack: I build this movable solar mounting rack. It allows me to move to wherever location, turn toward the sun, and for those who don't want to mount to roof (especially with HOA restriction). There are many types of solar brackets for homes, RVs and boats, but the process has been simplified so anyone with basic DIY knowledge can do it. By making your own mounting system, you can save on hardware that typically makes up around 10% of a solar project's cost. What's more, this homemade stand is adjustable, portable, and easy to build.
