

# Huawei Athens Energy Storage Project

## Overview

Greek energy company Faria Renewables and Chinese tech giant Huawei have announced a strategic partnership to advance battery energy storage system (BESS) projects in Greece. The collaboration was formalized with the signing of a Memorandum of Understanding (MoU), underscoring the shared. Cooperation aimed at developing and operating Battery Storage Systems (BESS) in Greece was signed by FARIA Renewables. They said the Chinese company would supply technological solutions including for photovoltaics and provide technical support for the execution and operation of. The companies signed a memorandum of understanding, which covers the supply of FusionSolar Smart PV & ESS photovoltaic solutions while providing integrated technical support for the implementation of 1GWh projects by 2026 in Greece and "summarizes their shared vision for the development of green. Huawei's Smart String Grid-Forming ESS ensures robust protection through five layers of integrated safety design, from individual cells, battery packs, racks, systems, and the grid. Built for reliability, this approach promises end-to-end safety throughout its lifecycle, covering manufacturing.
