Today, we are pleased to introduce our new products - commercial and industrial-scale battery energy storage systems for manufacturing, 200 kWh self-consumption solar power plants for blackouts, and large-scale integrated container systems that will ensure grid stability by. Huawei Ukraine, a partner of the Association of Solar Energy of Ukraine (ASEU), and Ecotech Invest have signed a memorandum of strategic cooperation in the field of renewable energy. As part of this collaboration, they have announced the implementation of one of the largest energy storage projects. Energy Storage System Products List covers all Smart String ESS products, including LUNA2000, STS-6000K, JUPITER-9000K, Management System and other accessories product series. The central theme of the meeting was the presentation of the Huawei LUNA2000-215-2s10 energy storage system—a modern solution that opens new opportunities for businesses and contributes to the development of Ukraine's energy independence. This effort supports the creation of safer energy infrastructure for new power systems, ensuring a sustained in 12 cells without incident. The system's innovative combined defense mechanism—positive pressure oxygen barrier and directional smoke exhaust. On March 15, 2024, Huawei Ukraine organized a forum on investments, technologies and legislation in the field of energy storage facilities "Store and accumulate".
