

Japan's container energy storage plant is running

Overview

TOKYO, Japan – November 29, 2024 – ORIX Corporation (“ORIX”) announced today that it will begin commercial operation of the Kinokawa Energy Storage Plant in Kinokawa, Wakayama that was jointly constructed with Kansai Electric Power Co. (“KEPCO”) on December 1, 2024 *1. Kinokawa Energy Storage. With a collective capacity of 290 MWh from 138 ESS containers, this installation represents Japan's most extensive deployment of lithium-ion ESS containers for grid-level energy storage applications. 88 MWh will be allocated to the ENEOS Muroran Plant, while the Chiba. One of Japan's first fully merchant battery energy storage systems has begun commercial operations, with Manoa Energy announcing the news this week for its Helios 50 MW / 104 MWh battery. GS Yuasa Corporation (Tokyo Stock Exchange: 6674) has received an order from ENEOS Corporation for lithium-ion storage battery systems (hereinafter called "these storage systems") for use in power grid stabilization as part of the construction of the new ENEOS VPP * business structure. Designed for disaster resilience and clean energy access, the Yoroi runs for ten years without refueling or onsite staff.
