

Latest photovoltaic panel installation projects

Overview

Explore the top US utility-scale solar projects of 2024-2025. Learn how gigawatt-scale farms and integrated battery storage are powering America's energy future. From which countries did the US import solar panels in 2025?

By Kelly Pickerel | February 23, 2026 By Kelly Pickerel | February 23, 2026 By Billy Ludt | February 23, 2026 Parent company plans to sell racking business as well. No speculative or half-built megaprojects and planned expansions. These. PHOTO COURTESY OF MCFARLAND CLINIC Shown is an aerial photo of McFarland Clinic — Marshalltown's solar panel field adjoining the clinic building at 421 E. Change is a constant in business. The U. front-of-the-meter, photovoltaic facilities, direct current capacity of 1 megawatt or more, that became operational before mid-2024. As of February 2026, there are. Solar projects range from large-scale power plants to small, community-based systems, each playing a crucial role in the transition to a more sustainable energy future. The appeal of solar energy lies in its abundance and renewability.
