

Lease or buy photovoltaic panels directly

Overview

Still, whether you should lease or buy your solar energy system depends on your budget, preferences and long-term plans. Buying is still a good option for homeowners who want maximum control and savings over decades, but leasing is best for those who want to avoid high upfront. The biggest commonality between leasing and buying solar panels is that the homeowner can experience utility savings while reducing their impact on the environment. owning is still a valid concern. Starting in. Buying solar panels requires an investment and more decision-making than leasing, but over the long term the benefits of owning your system are hard to beat. Whether you should purchase your solar panel system or lease it depends on what matters most to. Home solar is a means to long-term energy savings for a vast majority of US homeowners, but exactly how much you save depends on whether you lease or buy solar panels. We'll be the first to admit that solar financing isn't exactly the sexiest topic in the world and it can feel a bit overwhelming at.
