

London solar container communication station energy management system installation company

Overview

AG47 Energy undertake the installation of Smart Building Energy Management Systems for new-build projects, site expansions, retrofits and system upgrades. The Solar Communication Station (SCS) is a versatile, standalone unit which can serve as a CCTV control room and monitoring centre, a wireless or satellite telecommunications centre. BGE uses state of the art remote monitoring technology alongside dedicated and qualified engineers for each site. Brighter Green Engineering (BGE) are one of the UK's largest independent providers of high quality O&M and engineering services to the solar industry. With over 30 years of experience, we deliver complete, turnkey solutions. As a. Award-winning precision engineering business maximising rooftop solar to power advanced CNC and EDM machinery serving aeronautical and F1 markets.
