

Photovoltaic panel closing

Overview

KUALA LUMPUR - Several Chinese-owned solar panel makers have shut down or scaled back their operations in Malaysia, industry sources say, as US tariff hikes in 2024 squeezed margins and further hikes are expected. However, 2024 has brought immense challenges, with higher interest rates, tighter financing, and adverse policy shifts in key states contributing to over 100 solar bankruptcies based on our industry data, a number unseen before in our almost 20 years in the solar sector. California was particularly. What are common reasons to remove solar panels?

Solar panels are usually taken down because of roof repairs or replacements when the panels block access to the roofing materials. Now, they are probably selling you a financial product—likely a lease or a loan. Ivanpah has not produced the energy promised, and instead relies on natural gas to keep operating. That's why concerns about solar bankruptcies have spiked.
