

Price quotation of angle steel photovoltaic bracket

Overview

Ground-mounted systems currently offer the best value at ¥0.5/W, while rooftop solutions vary wildly: Platforms like 1688.com now offer bulk purchase discounts - order 500+ units of C-profile galvanized steel and watch prices drop to ¥4.

Galvanized angle brackets are created by laying a structure of zinc over the steel to protect it from harsh weather conditions and moisture. This makes ideal brackets for application in outdoor regions or those with high gull and humidity. It has the characteristics of stability, durability and adaptability, and is widely used in solar power generation projects. 58 after platform discounts - that's 15% lighter than last-gen models. Future Energy Steel offers a wide range of high-quality photovoltaic brackets specifically engineered for modern solar energy systems.
