

What are the production stations for Norway's outdoor communication battery cabinets

Overview

Arva AS has ordered three mtu EnergyPack battery storage systems to maximize energy utilization at Senjahopen and Husøy. The battery package on Husøy, with a capacity of 2,718 MWh, will be Norway's largest battery of its kind. Outdoor communication cabinets, also known as outdoor enclosures, are specialized equipment directly exposed to natural climatic conditions, typically made from metal or high-strength non-metallic materials. Their primary design objective is to provide a stable and secure physical operating space. In 2024, Nordic Batteries initiated test production at their Kongsberg facility, marking a significant advancement in their manufacturing capabilities. Our products offer robust, high-performance power solutions suitable to power a variety of defence applications, including portable military electronics and communication systems. We work closely with the. With extensive experience in outdoor cabinet design and industrial-grade manufacturing, Cytech develops energy storage battery cabinet solutions that align with global safety standards and. We are a High-tech Listed Group integrating R&D, OEM, ODM, manufacture and sales.
